Averages

--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

Determine the Mid-Density (MD). This is the step with an average density close to but not less than 1.20.

Determine the High-Density (HD). This is the step with an average density close to 2.20

Determine the Low-Density (LD). This is the step with an average density close to but not less than 0.45

	Mid-Density (MD)	High Density (HD)	Low Density (LD)
Step #			
Average Density			

Density Difference (DD) = HD - LD	
-----------------------------------	--
